

10 REASONS

WHY YOU
SHOULD
BUY
M32
OVER
WING

?

10 REASONS

01

Matured Product

M32 has been in the market for around 8 years. Along these year, there are numerous firmware update, increasing number of hours in road tour, successful concert using M32. The workflow, features and capabilities has been fully optimized. Don't believe? You can ask any of these thousands of sound engineers in the world.

02

Full IO Built In On Board

M32 full IO capability is all built on board. There is no need to purchase any stage boxes to make the console to run its maximum capacity. For start-up user, the initial investment will be lower as there is no need to purchase any stage boxes.

03

More Dedicated Knobs And Button For Immediate Reach

There are more processing buttons and knob built on board for instant adjustment. In WING, the buttons and knobs are shared in conjunction with the touch screen usage in the workflow.

04

Midas PRO Motorised 100 Mm Faders 1 Million Life Cycles

M32 is using 1 million life cycles Midas PRO Series fader. Midas's fader is designed to be the world's most reliable motor fader where material science was taken into account for the most durable fader motor. The million cycle fader is 3 times other console in the world.

05

Longer Layer

M32 has the longer fader strip in a single layer. That's 16 faders in a layer. This make one shot full glance at the bigger channel count or output view.

06

Dedicated FX Return

8 Dedicated FX Return ready for immediate usage making fast FX send and return operation. These dedicated FX does not eat up the input channel count.

07

Ultramodern & Classic Outlook Design By Bentley Designer

M32 employs modern and classic outlook design from the designer of Bentley. The result is the slanting, easy to navigate, nice looking mixing console. On contrary, WING went for retro and vintage look.

08

Midas 10-Year Warranty

10 Year Warranty* versus Behringer 1 Year Warranty. That's pretty self-explanatory.

09

192 Khz ADC And DAC

Midas utilize audiophile Cirrus Logic multichannel 192 kHz capable ADC and DAC converter with 114 dB dynamic range with low distortion and low noise performance.

10

Brand

Midas has been in the top end pro audio market for over 40 years. It has been used by countless world tours by greatest artists and the most prestigious events. Behringer WING benefits by many Midas engineers by technology transfer within the Music Tribe brands. Midas is second to none in digital mixing console.
