

# Moving Heads at *Arena Melaka*

Melaka has recently been blessed with a new outstanding club, Arena Club. Arena Club is managed by Arena Equation Sdn Bhd and is situated behind Holiday Inn at The Jetty, Melaka. With a capacity of about 1,000 pax and a total floor space of 3327 square feet, and not forgetting the huge 397 square feet 2-level performing stage, Arena Club can lay claim to be the biggest club in Melaka. Besides being the biggest, Arena Club is also considered the most glamorous and exclusive club in Melaka, thanks to its interior design and equipment. Arena is mainly a live band club, featuring local bands, while also playing R&B and hip-hop and house music.

A total of **15 Zomax ZM-575II SPOT moving heads** were used in Arena Club. They were separated into several clusters at the stage, ceiling, stage lighting bar and control room. Each cluster focuses on certain areas and certain effects according to the live band or dance floor requirements. With 15 units of moving heads, the effects of the moving light beams and colorful patterned spots create stimulating visuals for the perfect party mood.

## Lighting Equipments:

Zomax ZM-575II SPOT moving heads –	15 Nos
Par-64 par cans –	24 Nos
Behringer LD-6230 dimmer packs –	4 Nos

Such was the superb performance of the **Zomax 575W moving heads** that they replaced the initial requirement of the club for 1200W moving heads. This enabled the use of a bigger number of units, and saved the club a lot of budget for other purposes, even to lower down daily electricity consumption.

**24 Par-64 par cans** were also installed on the stage lighting bar, powered by **4 units of Behringer LD-6230 dimmer packs**. These par-cans were dedicated to illuminating the stage during the live band sessions.

With the lighting effects combined with the transparent glass walls of the building, Arena creates an awesome visual experience both inside and outside the building. Such effects attract the crowd from the surrounding areas, especially the guests of Holiday Inn.

By setting such a high standard of experience in the Melaka’s club scene, Arena Club will continue to be “the” club to be and be seen in Melaka.

Lighting equipments were supplied and installed by **Xuan Music Station**. Zomax Lighting distributed and supported by **AV Electronics Marketing Sdn Bhd** (<http://www.avem.com.my>).
