## Revolutionary Digital DDM4000 DJ Mixer from BEHRINGER

The DDM4000 is a state-of-the-art 32-bit digital DJ mixer, jam-packed with creative tools, yet its intuitive layout will let you feel at home in an instant. Editing, storing and recalling your settings is simply a breeze!

Hook up your turntables and CD/MP3 players to its 4 stereo channels, each with fully programmable EQ and Kill switches. Put ultimate versatility at your fingertips with fully programmable beat-sync'able multi-FX modules, a pair of high-precision [BPM counters](#) and a digital [crossfader](#) with custom curve adjustment. And the super-cool BPM-sync'd sampler with real-time pitch control, loop and reverse functions will make your crowd go wild.

**Get this deejaytal monster DDM4000 and become the star of the night!**

### USER REVIEW

- 9 total effects with adjustable parameters.

#### SAMPLER

- Record your sources (max 16 beats) and assign to either Bank 1 or 2.
- Play back individually or mix.
- Assign-able to Cross fader.

#### CROSS-FADER

- 3 assign-able level curve to suit user's performance.
- 3 kill push buttons (high, mid, low).

#### PRESET ( POEWER !!)

- 4 User recall-able or save-able mixer status/setting.

#### Self comment

- Too complicated once seen the outlook, *need to hand-on then only can get familiar.*
- *Extremely prefect for those Experimental / Pro dj or Musician due features are very useful and straight forward some more good for money.*
- *This mixer also can treat as a MIDI controller where manage to interface any of the Virtual DJ software available in market like Traktor, Virtual Dj and Mix man and etc....through/from MIDI.*

## Features

- 32-bit digital DJ mixer with beat-synchronized sampler, 4 multi-FX sections, 2 patented\* BPM counters, digital crossfader and MIDI
