JROCK No Tamashii '09

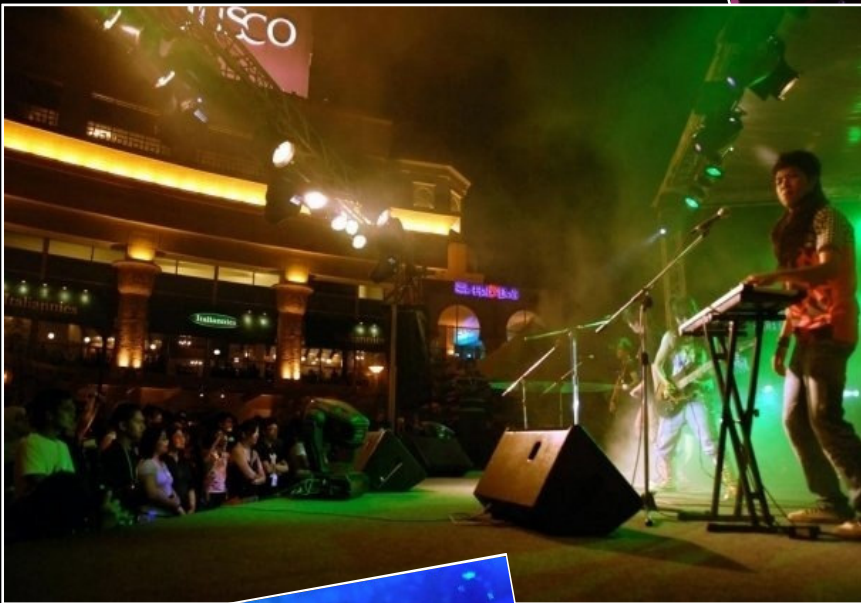

Spirits of Music, the biggest and only Japanese music organisation in Malaysia, brought us a bigger, better and more dynamic Japanese live music! The theme of this magnificent event was 'The Spirits of Japanese Rock', ie. *JRock No Tamashii*. The event was held at the The Republic Bar, Sunway Pyramid on 21st March 2009 with hundreds of audience cheering their favorite bands.

Seven local bands was present to rock the house with songs of your favourite Japanese bands including L'arc~en~ciel, Dir~en~Grey, MUCC, Flow, Girugamesh, GO! GO! 7188, Tokyo Jihen and many more! We also witnessed some of these bands' very own original compositions!

The performances by the bands were superb. The band of course had a little help, which is from the **IVA Line Array Speaker System**, **BUGERA Guitar Amps** and **SONOR Drums**. With just 4 IVA Line Array cabinets per side, **IVA** was able to cover the entire floor area of 1300 square feet with ease. The combination of the guitarist with the BUGERA tube amp was impeccable. The sound produce by the SONOR drums was astoundingly good even after hours of pounding from the drummers.

Equipments Used:-

- 1) IVA's Medium Line Array System
- 2) Behringer's BX-4500H
- 3) Bugera's 6260 and 6262
- 4) Sonor's Drum Force 507

Bugera
THE SOUL OF VALVES
