# Sound Reinforcement Speaker with Digital Signal Processor (DSP)

**EUROLIVE B1520DSP and B1520DSP** PA speaker systems boast 600 Watts that will simply blow you away. It holds a bi-amped 600-Watts engine which drives high-efficiency **15" and 12" woofers** for brutal punch and a 1.75" titanium driver for high-end resolution. The rotatable, asymmetrical horn design allows a driver adjustment for either **horizontal floor monitor application or upright position**. The built-in mixer allows you to run the show without any extra equipment.

A powerful 24-bit DSP controls the crossover, a dual compressor/limiter, phase and time corrections and even a noise gate. The intelligent **dynamic EQ** makes sure your system sounds perfect at any sound level.

## FEATURES

- ➔ High-power 600-Watts (Peak, bi-amped) 2-way PA sound reinforcement speaker system with integrated mixer for live and playback applications
- ➔ State-of-the-art 24-bit digital signal processor for ultimate system control:
  - ✓ Digital crossover, phase and time correction for perfect driver alignment plus dual compressor/limiter for total system protection
  - ✓ Digital noise gate, low-cut filter, 2-band EQ, dynamic Contour filter for ultimate sound reproduction
- ➔ 2 ULN Mic/Line inputs with individual volume controls and peak LEDs
- ➔ Extremely powerful 15" & 12" long-excursion drivers provide incredibly deep bass and acoustic power
- ➔ State-of-the-art 1.75" titanium-diaphragm compression driver for exceptional, high-frequency reproduction
- ➔ Rotatable, asymmetrical horn design allows driver adjustment for either horizontal floor monitor application or upright position
- ➔ Additional Line output enables linking of additional speaker systems

**Integrated Mixer with  
Digital Signal Processor**
