

Total Solution with EMRM-Series

“Choose **EMIX** EMRM-Series for ALL Your PA Needs”

EMRM-Series are Emix’s newest 19” rack mount Public Address equipment rack.

- ✓ Large Scale system, can support up to 100 zones
- ✓ Suitable for integration with several buildings together
- ✓ Operates via CAT-5E cable
- ✓ Save Cabling Cost

EMRM is a FULL RANGE 19” rack mounted public address equipment. The EMRM-series has all the basic functionality for compliance with Jabatan Bomba requirement, including full system supervision, background music (CD/DVD player & AM/FM Tuner) and a supervised emergency microphone on the front panel. The system can be expanded up to 100 zones using additional 10 zone selectors. Up to 4 call stations can be connected at the same time. Interconnections by using standard RJ45 connector and shielded CAT-5 cables. Our Automatic changeover unit ensures normal operation of the PA system in case of amplifier failure. It will automatically detect amplifier failure and switch over without affecting the operation. The standby battery chargers are designed to provide 24VDC supply and come with a battery charger circuit. Standby batteries shall be 24VDC ratings and of maintenance free sealed lead acid construction.
