High power projection solutions that offer reliability and outstanding performance in every environment

WORLD CLASS LEADER in Business and Entertainment Projector

Epson is building on its long-held position as a world leader in business and entertainment projectors with the release of its G Series of powerful installation multimedia projectors with advanced features and multi-level security designed for ease of use in the education, hospitality and professional sectors.

The G Series projectors – the Epson EB-G5150 (optional wireless function), EB-G5200W (widescreen) and EB-G5350 (optional wireless function)– is a new class of projectors built with the latest projection technology that further improves Epson's renowned reliability and flexibility.

As the global leader in projectors, Epson provides a high level of expertise and support to its customers, and is committed to delivering innovative projectors with the latest technologies and advanced integration and networking capabilities.

The G Series is designed to deliver reliable long term operation and a low total cost of ownership with minimal maintenance in high use and high traffic environments in venues typically used by the education, hospitality and professional sectors.

Outstanding Image Quality

- High contrast ratio provides brilliant projected images
